EXPERIENCE

Yolk Studio

Aug 2025 – Present

Software Engineer · Full-time

- Built AI document extraction with Gemini for a UK mortgage platform
- Built secure MCP API access so AI agents can work with client platforms
- Rebuilt a mortgage-origination platform with React, TanStack Query, Express and .NET
- Shipped fintech apps in React Native — wallet deposits and AML verification
- Automated internal workflows with n8n, a Slack bot and CI release pipelines
- Built a news platform with Expo, Next.js and NestJS, including Stripe payments
- Delivered marketing sites with Next.js and GSAP animations

EDUCATION

Unicorn University, Prague

Sep 2024 – Present

Bachelor's Degree in Software Development — graduating 2026

Gymnázium Ostrov, Ostrov nad Ohří

Sep 2015 – Jun 2023

8-year Program, Concluded with Maturita Exam

SKILLS

AI & Automation:	LLMs (Gemini, OpenRouter), MCP, Claude Code, n8n
Web & Mobile:	TypeScript, React, Next.js, React Native, TanStack Query, Tailwind
Backend:	Node, NestJS, .NET, PostgreSQL, Stripe, Playwright

PROJECTS

Most of my client work is under NDA — happy to demo it live on a call.

INTERESTS

Really into sport — recently started training for my first Ironman.

LANGUAGES

Czech (native) • English (fluent) • Vietnamese (intermediate)
