ABOUT ME

Software engineer building AI-powered web and mobile products end-to-end. Finishing my BSc in Software Development in 2026. Really into sport — currently training for my first Ironman.

EXPERIENCE

Yolk Studio

Aug 2025 – Present

Software Engineer · Full-time

- Built AI document extraction with Gemini for a UK mortgage platform
- Built secure MCP API access for AI agents with tenant-scoped keys and rate limiting
- Automated internal workflows with n8n, a Slack bot and CI pipelines
- Rebuilt a mortgage-origination platform with React, TanStack Query, Express and Drizzle
- Developed fintech features in React Native — wallet deposits and AML verification
- Added CI quality gates and end-to-end tests with Playwright and Vitest

Hostivio & Pultio

Jan 2025 – Present

Founding Engineer · Part-time

- Built AI guest-ID scanning with a vision LLM and on-device OCR
- Shipped the Hostivio iOS app with Expo, EAS builds and OTA updates
- Automated Czech police guest registration (Ubyport)
- Built Stripe Connect payouts and a direct booking engine
- Set up PostHog analytics and improved Core Web Vitals
- Built the Pultio point-of-sale back office

EDUCATION

Unicorn University, Prague

Sep 2024 – Present

Bachelor's Degree in Software Development — graduating 2026

VŠE, Prague

Sep 2023 – Sep 2024

Bachelor's studies, Faculty of Informatics and Statistics

Gymnázium Ostrov, Ostrov nad Ohří

Sep 2015 – Jun 2023

8-year Program, Concluded with Maturita Exam

SKILLS
